

CALM DISCOVERY™ LIQUID

- A calming support formula recommended for animals exposed to increased environmental stressors.
- When pets can't adapt to stress it can lead to nervousness, hyperactivity, excess barking, abnormal urine marking, excessive scratching, and destructive or aggressive behavior.

- **Recommended for:**

- Changes to Environment
- Boarding or Holidays
- Moving or Traveling
- Injured or ill pets
- Company or Parties
- Boredom or Separation Stress
- Fireworks and Thunderstorms
- Veterinary or Grooming Visits

- **Calm Discovery™ Liquid** for Cats and Dogs help you to manage behavioral problems in pets without affecting your animal's emotional balance and personality. It contains a combination of ingredients not found in other calming formulas, which help reduce behavior problems associated with stressful situations.
- It combines a Colostrum Calming Complex with L-Theanine and Thiamine (Vitamin B1), which all address stress management and calming.
- The Colostrum Calming Complex is known for its calming effects, and it works synergistically with the L-Theanine in this formula. L-Theanine acts to improve the release of neurotransmitters in the brain and the Colostrum Calming Complex affects the receptors in the calming response.
- **L-Theanine** supports calming and relaxation, reduces irritability and low mood states. We use the Suntheanine® brand which has extensive research and documentation that suggest it is helpful in the area of reducing stress and supporting calmness. L-Theanine is a naturally occurring amino acid found in green tea that is a derivative of glutamic acid; a neurotransmitter in the brain. It helps the body to produce other calming amino acids such as dopamine, GABA and Tryptophan and helps bring certain neurotransmitters into better balance. Studies done on L-Theanine showed that dogs reduced stress-related behavior problems without adverse effect and no reported drowsiness; dogs were alert, playful, and calmer than expected given their situations.
- **B Vitamins** help manage stress and help reduce irritability. Thiamine (Vitamin B1) specifically has been shown to affect the central nervous system to help calm and soothe anxious animals. Because Thiamine is not stored in the body, increased activity, stress, illness, or metabolism depletes its levels in the body. Deficiencies cause mental confusion, muscular weakness, muscle spasms, nervousness, and weight and appetite loss during periods of stress.
- **Calm Discovery™ Liquid** for Cats and Dogs does not contain any herbal ingredients (Kava Kava, Valerian, St. John's wort, etc.) or L-Tryptophan. The ingredients in Calm Discovery™ Liquid do not cause side effects, addiction, drowsiness or impair motor skills.
- It can be used daily or just when extra help to relax is needed.
- **Directions For Use:** Shake well before use.
Cats (all): 1/4 teaspoon, twice daily.
Dogs:
 Under 25 lbs: 1/4 teaspoon twice daily.
 26 - 49 lbs: 1/2 teaspoon twice daily.
 50 - 75 lbs: 3/4 teaspoon twice daily.
 76 lbs and over: 1 teaspoon twice daily.
During Times of Increased Stress: It is safe to double or triple the above amount, as needed.
