

DIGEST DISCOVERY™

- A formula designed to support proper digestion and bowel health in cats and dogs.
- **Digest Discovery™** is a combination of N-Acetyl Glucosamine, digestive enzymes, Lactobacillus acidophilus, and alfalfa to help support the protective layers of the bowel. It also helps maintain genito-urinary tract health.

- **N-Acetyl Glucosamine** is a form of glucosamine that is found naturally in the glycoprotein layer of mucous membranes (such as: digestive, genito-urinary and respiratory tracts and other organs). It helps to support the production of glycoproteins, which supports structural integrity and healthy function of various glyco protein layers. N-Acetyl Glucosamine also helps to support the body's natural protective barriers against acids, enzymes, and invading microorganisms.
- **Proteolytic Enzymes** (Pepsin, Papain, and Bromelain) help to support digestion and helps to normalize stress on the mucous membranes.
- **Lactobacillus acidophilus** helps to support beneficial microbials in the intestines.
- **Alfalfa** is a rich source of Vitamin K it helps support the intestinal wall and other mucous membranes, and helps the body to produce more of its own beneficial microbials.
- Available in capsule for easy administration.

• **Directions For Use:**

Initial: (7 - 10 days)

Give 2 capsules per 10 lbs of body weight, daily. If under 10 lbs, give 1 capsule daily.

Maintenance:

Give 1 capsule per 10 lbs of body weight, daily. If under 10 lbs, give 1 capsule every other day.
