

GRAPE SEED - 10, 50, & 100

- A Grape Seed Extract formula for dogs and cats to support immune system, circulatory functions, and skin health.
- **Grape Seed Extract** is recommended for dogs or cats with recurrent or persistent skin or respiratory concerns (due to its ability to regulate histamine) as well as for animals that need joint, immune, circulatory, and vascular support.
- **Grape Seed Extract** is standardized to yield 95% proanthocyanidins per capsule.

- Proanthocyanidins are a special type of water-soluble bioflavonoids that are potent antioxidants.
- Proanthocyanidins help to normalize the release of histamine from mast cells.
- Proanthocyanidins support capillary strength.
- Available in 3 different milligram levels.

Directions For Use:

10 mg formula: Give 2 capsules daily, per 10 lbs of body weight for 7 - 10 days. Then give 1 capsule per 10 lbs of body weight daily.

50 mg formula: Give 2 capsules daily, per 50 lbs of body weight for 7 - 10 days. Then give 1 capsule per 50 lbs of body weight.

100 mg formula: Give 2 capsules daily, per 100 lbs of body weight for 7 - 10 days. Then give 1 capsule per 100 lbs of body weight.

- **Grape Seed**
