

IMMUNO-DMG™ EQ

- A Formula to Support Immune System Function, Cardiovascular Health, and Endurance.
- N,N-Dimethylglycine (DMG) is an intricate part of animal metabolism and is produced in the horse's body.
- It supports physical and mental performance by helping the body adapt to various forms of stress caused by aging, poor oxygen availability, free radicals, and a weakened immune system.
- DMG supports efficient oxygen utilization and muscle recovery.
- DMG helps to support the immune response.
- DMG supports the production of intracellular glutathione and SAME.
- DMG provides available methyl groups needed for the conversion of homocysteine to methionine.
- **Recommended for:**
 - ☐ Immune System Support
 - ☐ Circulation and Cardiovascular Health
 - ☐ Liver Metabolism and Detoxification
 - ☐ Muscle Recovery
 - ☐ Behavioral Problems
 - ☐ Shipping Stress
 - ☐ Respiratory Function
 - ☐ Performance & Stamina
- DMG is a safe substance that has been used in both the human and veterinary health field for almost 30 years without adverse or negative side effects.
- Available in powder form for top dressing.
- **Directions For Use:**
 - Performance:** 1 scoop twice daily for 3 - 4 days prior to heavy activity. Then go back to maintenance level.
 - Stress:** 1 scoop twice daily for 14 days. Then go back to maintenance level.
 - Maintenance:** 1 scoop per day.
