

OLI-PET™

- 100% Pure Olive Leaf Extract standardized to yield 15% Oleuropein, the active ingredient in Pure Olive Leaf Extract. Oleuropein has been tested in clinical trials and is highly beneficial in supporting healthy micro organisms in the body and supporting immune system function.
- A formula that works by supporting your animal's own protective cells (phagocytes) to ingest foreign materials without suppressing the immune system or damaging beneficial G.I. microflora.
- Olive Leaf Extract also contains a natural complement of bioflavonoids from Quercetin and Rutin, which are antioxidants.
- Available in 250 mg and 500 mg capsules for small animals or a 15 gm and 60 gm tube for small and large animals to support immune system function.
- **Directions For Use Capsules:**
When giving more than 1 capsule daily, divide between AM and PM.

250 mg vegetarian capsules:

Initial: (7 - 10 days): Under 35 lbs: 1 capsule daily. 35 - 70 lbs: 2 capsules daily.

Maintenance: Under 35 lbs: 1 capsule every other day. 35 - 70 lbs: 1 capsule daily.

500 mg capsules:

Initial: (7 - 10 days): 2 capsules per 70 lbs.

Maintenance: 70 lbs: 1 capsule daily. Over 70 lbs: 1 - 2 capsules daily.

- **Directions For Use Paste:** One cc is equal to one gram of product. Product is administered orally by setting the Dial-A-Dose ring to deliver a specific volume in cc (cubic centimeter).

Dogs and Cats:

Initial: Give 1 gram (1cc) 3 times daily.

Maintenance: Give 1 gram (1cc) daily.

Foal:

Initial: Administer 10 grams (10cc) daily for 3 days then use maintenance level.

Maintenance: 5 grams (5cc) daily.

Horses:

Initial (3 days): Administer 30 grams (30cc) daily for 3 days then use maintenance level.

Maintenance: 15 grams (15cc) daily.
