

ULTRA-ELITE CALM & FOCUS PASTE

- **Ultra-Elite Calm & Focus Paste** is designed to support horses of all breeds that are exposed to stress.
- It's a balanced formula containing the amino acid, L-Theanine (Suntheanine® brand) along with a Colostrum Calming Complex, which have calming properties that may help relax and quiet down excited or nervous horses.
- **Ultra-Elite Calm & Focus Paste** may help the body manage anxiety related behavior problems in horses without affecting your horse's emotional balance and personality.
- A unique combination of ingredients are combined to support stress management and optimize relaxation without causing drowsiness in all classes of horses. Helps to maintain calmness in overexcited, high strung or stressed horses without reducing performance.
- **Recommended for:**
 - Destructive behavior caused by environmentally induced stress
 - Before farrier or veterinarian visit
 - For use in nervous, tense, high-anxiety horses
 - For normally calm horses before, during and after work/races/shows/competitions
 - Environmental changes
- **L-Theanine** supports calming and relaxation, reduces irritability and low mood states. We use the Suntheanine® brand which has extensive research and documentation - over 45 studies - which suggest it is helpful in the area of reducing stress and anxiety. L-Theanine is a naturally occurring amino acid found in green tea that is a derivative of glutamic acid, a neurotransmitter in the brain. It helps the body to produce other calming amino acids, such as GABA and helps bring certain neurotransmitters into better balance. Studies done on L-Theanine showed that dogs had a reduction in anxiety related behavior without adverse effects, and with no reported drowsiness; dogs were alert, playful, and calmer than expected given their situations.
- **Colostrum Calming Complex** is known for its calming effects, and it works synergistically with the L-theanine in this formula. L-Theanine supports the release of neurotransmitters in the brain and the Colostrum Calming Complex allows the receptors to better potentiate a calming response.
- **Ultra-Elite Calm & Focus Paste** does not make use of any herbal ingredients or L-Tryptophan. Free of tested herbals like Kava Kava, Chamomile and Yucca.
- It can be used daily or when exposed to stress.
- Horses love the taste of **Ultra-Elite Calm & Focus Paste** and you'll love the ease of administration.
- **Directions For Use:**
Administer whole tube. During periods of dynamic stressors or when stressors are severe, administration can be repeated 1 hour after first tube and again four hours later.
- **Ultra-Elite Calm & Focus Paste**
