

# ULTRA-ELITE GLUCO-SUPPORT EQ Pellets

**Supports muscle tone, coat & hoof health  
and insulin & glucose levels within normal ranges**

- **Ultra-Elite Gluco-Support EQ** is a combination of amino-acids, herbs and antioxidants that support proper glucose utilization, mood, and muscle integrity as well as hoof and coat health.

- **Recommended for:**

- Horses pre-disposed to insulin-resistance
- Glucose Intolerance
- Hormone Imbalance
- Hoof Health

- **About the ingredients:**

- **Alpha Lipoic Acid** is a potent antioxidant that reduces oxidative stress, helps normalize protein glycation and helps to manage blood sugar levels by promoting glucose transport into the cells thus promoting its use for energy production.
  - **Chasteberry Powder** supports the normal functioning of the pituitary gland.
  - **Chromium Picolinate** is a mineral that is important for proper glucose utilization.
  - **Cinnamon** helps enable cells to recognize and respond to insulin, the hormone that transports glucose (sugar) from the blood and deposits it into cells.
  - **Jiaogulan Extract** is a powerful antioxidant and adaptogenic herb.
  - **L-Arginine** supports the formation of L-proline, an important amino acid that is essential for the production of collagen.
  - **L-Lysine** and **L-Methionine** are key amino acids used in the production of the protein keratin, the primary protein found in the hoof wall, which supports a stronger, more flexible and faster growing hoof.
  - **L-Threonine** is an important structural constituent of connective tissues like collagen, elastin and enamel protein.
  - **L-Tyrosine** supports performance in times of stress. It is an amino acid that supports neurotransmitters to help regulate mood.
  - **Magnesium** is a co-factor of many enzymes involved in glucose metabolism and is required for both proper glucose utilization and insulin signaling.
  - **N-Acetyl L-Carnitine** is an amino acid that plays an essential role in energy metabolism. It carries long chain fatty acids into the mitochondria where they are converted into energy for muscle contraction.
  - **Rhodiola rosea** is an adaptogenic herb that helps support the horse in times of stress resulting in better management of cortisol.
- 
- **Directions For Use:**  
Give 1 scoop daily.
- 
- **Ultra-Elite Gluco-Support EQ Pellets**  
0500665.060 60 Servings (7.28 lbs 3.30 kg)

**Active Ingredients Per**

**Approximately 1 Scoop (55 g):**

A Proprietary Blend of [L-Threonine, L-Tyrosine, L-Lysine, N-Acetyl L-Carnitine, Chasteberry Powder, L-Arginine, L-Methionine, Rhodiola rosea Powder, Alpha Lipoic Acid, Jiaogulan Extract, Cinnamon, Magnesium Proteinate, Chromium Picolinate] 14.65 g

**Inactive Ingredients:** citric acid, flavoring (dextrose, sodium saccharin, tricalcium silicate), propionic acid, red dog wheat, rosemary extract, silicon dioxide, tocopherol blend, vegetable oil, wheat bran.
